Hoot Gibson in

"King of the Rodes"

Here's the big picture that was filmed during the famous Chicago Rodeo—the picture with a world of Wild West thrills surrounding its modern dramatic story—the picture that will give you one of the biggest kicks you ever got from ANY film entertainment, SEE IT!

This Saturday Nite

The Dandy Dixie Minstrels

Their Orchestra will play for the Dance after the Show.

COMING:

"Shadows of the Night"

British American Oil Co., Ltd.

If you want Gasoline, Coal Oil or Lubricating Oil in a hurry, phone us.

We have Modern Equipment in every way. Electric Motor, pumping Gasoline or Coal Oil 2,500 gallons per hour.

Phone your requirements—we deliver when you want it—where you want it.

Try "Autolene" Lubricating Oil, any grade to suit your tractor. There is none better.

B. M. ROBERTS. - Agent.

Women's Institute Regular Meeting

According to announcement Mrs. Beaubier entertained the Women's Institute and demonstrated to us how she makes angel food. It is well known that Mrs. Beaubier gets the prize for this, so about thirty were there to learn. The cake turned out grand, but was too hot to eat so it was raffled and Mrs. U. G. Anderson won it. Mrs. Wise gave a really excellent address on "The History and Purposes of Education." Mrs. Bastin, who is ill, sent her report of the Vuleau conference. It was decided to give a social afternoon on Sept. 20th at the home of Mrs. Sommers—cards and refreshments,—also to have a dance on Hallowe'en. Delightful refreshments were served by the hostess and Mrs. Millin, assisted by Mrs. Ulrich and Mrs. Bond.

Mrs. A. Caldwell is on a visit to Browning, Montana.

Local and General

Dr. and Mrs. Freeze returned home this week after an extended holiday.

Mrs. U. G. Anderson entertained a number of ladies Wednesday and Thursday evenings.

Joe Hicks, barrister, of Barons, will be at L. J. Adams' office every Tuesday and Friday where he may be consulted.

Mrs. Frank Sisson was one of the winners of a cash prize in a contest staged by Ludens Inc., manufacturers of cough drops, the merits of these cough drops to be the subject of the letter. There were over ten thousand contestants from all over the world, and only 143 prizes, so that Mrs. Sisson's win is really noteworthy.

RUBY GRAHAM

Teacher of Piano and Theory Studio
Residence of Mrs. G. M. Campbell, Phone 76.
All pupils successful in June examinations.

Coming Sat. Sept. 14th

The Dandy Dixie

Champion Meat Market

Leishman Clothes

LOOK FOR THE QUALITY

YOU may easily decide whether you like a certain style, color or cloth, but do not overlook the importance of quality.

It is not easy to discern the quality or the wearability of cloth. But you can be sure that any garment bearing the Leishman label is the last word in quality in every respect.

LEISHMAN quality is universally recognized, and those who wear Leishman clothes will tell you that they are the cheapest in the end.

Specials

We are going out of these lines and these prices will see the last of them:

A few pairs of Hurlburt Shoes, odd sizes for the children, to clear at. **50 per cent discount**

Boys' grey tweed Trousers, per pair **1.00**

Child's Knitted Suits, Reg. \$3.75, now selling at **2.65**

Headlight Overalls for the Young Fellows.

They're just like dad's:

Child's sizes, Reg. 1.50, sale price. **\$1.15**

THURSDAY, Sept. 12, 1920

NOTES AND COMMENT.

Prognostications as to whether next year will be dry or not are frequent. Previous experience is to the effect that there is sufficient evidence of next year being a dry one to assure the farmers that only reasonably prepared land should be sown. But then, regardless of the season, this has always been the case when the final summing up is made.

The Conservatives are in Saskatchewan after being in opposition for twenty-four years. To insure a majority they must have the support of the Progressives and Independents in the house, but this should not be difficult as the inclination to be on the government side is always more satisfactory to the different groups than to be in opposition.

Premier King is to make a tour of the West this fall, following the visit of the Conservative leader. These trips must serve some party purpose, although from the side lines it is sometimes difficult to estimate just what is accomplished. However, newspaper copy is furnished in abundance.

Washington fruit has been on the market for the past week and this week the British Columbia products will be offered. It is stated the latter will be higher in price than the fruit from the other side. Naturally B.C. is in favor of a tariff that will hold the prairie market for their fruit. The prairie purchaser cannot see it just that way.

The Winnipeg Free Press crop estimate for Alberta is 77,363,540 bushels with a yield of 11.12 bushels per acre, while the Manitoba crop is estimated at 37,241,750 and the yield per acre at 14 bushels; Saskatchewan is credited with 151,609,394 bushels, a yield of 11 bushels per acre. The total for all three provinces of 226,077,680 is only slightly over half last year's yield.

The Doukhobors continue to provide considerable excitement at Nelson, B.C. Religious fanatics of any description are hard to deal with, and the Doukhobor on the rampage seems to be about the limit.

England is experiencing the second drought for the present season. The old adage that misfortunes never come singly might well apply in this instance.

The fact that the corn show will be held at Lethbridge in November is a fair indication that the South has been in the favored portion or the Province this year as far as crops are concerned and that corn thrives in hot weather.

While geological indications

are extremely favorable favorable at the Champion oil well, considerable difficulty has been experienced from caving and progress has been slow as a result. It is hoped to encounter different formation shortly and make new hole more rapidly.

The late showers are having a beneficial effect on the newly graded roads. Some of these roads became so dangerous that that they were for a time closed to traffic. The rain and the drag will soon put them in good condition. We shall certainly have better winter roads.

Some of our apparently well-bred canine pets need a little more schooling in the customs of our domestic civilization. It is rumored that some of such dogs, whether from the pangs of hunger or an innate devilish desire to capture and kill, attacked and almost killed a cow belonging to Norris Hanna. In extenuation of this insatiable propensity of the dogs it may be conjectured that, perhaps, they witnessed the tragedy that befell Jack McKay's cow when undone by a headlong truck, or had watched Jack's own expert handiwork as with mallet, sculpel and saw he performed his manipulations in his slaughter house. Who can tell? Dogs are such imitators you know. Or do they like other cursors of human pretense, frequent the butcher shops — Lomond Press.

Wheat Pool Notes

The Alberta Wheat Pool is making a determined effort to point out to Pool members the importance of delivering Pool grain to Pool elevators wherever it is possible, in view of the light crop in Alberta this year.

The Pool elevator system was built up for the purpose of giving service

Lutheran Church Services

The Lutheran church still preaches the Gospel of Christ and His crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Sept. 13th, at 11:00 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.

and protection to the membership. Three years ago there were 4 Pool elevators in Alberta. Today there are 437, representing an investment of over six million dollars of Pool farmers' money. This investment must be protected.

Pool members should realize that it is a matter of very great importance for the Selling Agency to have Pool wheat readily available at all times. When Pool wheat is delivered to Pool elevators it is always available to the Selling Agency.

This great elevator system was developed because Pool farmers insisted that this course be taken. For years the head office of the Wheat Pool has been deluged with requests and even demands for Pool elevators. Now it is up to Pool farmers to show their appreciation of their own system by delivering their wheat to Pool elevators.

The introduction of combines and auto trucks has speeded up harvesting on the Canadian prairies to a remarkable degree. The result has been an unprecedented flow of grain to the elevators during a brief period in the fall. In order to restrict this glut as much as possible the Alberta Wheat Pool is offering a bonus of 2 cents a bushel for wheat held on farms until December 2nd, 1920. Wheat producers should realize it is not good business to deliver the crop in such a hurried manner that it has a reaction any effect on the market.

The Wheat Pool has not made a practice of compelling Pool farmers to deliver their crop in one crop year.

The United Church of Canada

UNITED CHURCH SERVICES

The Champion church service will be combined with the Sunday school session, 11 a.m. on Sunday, July 14th, and the last three Sundays of August after the pastor's return from his holidays. Services are heartily invited.

"The Chronicle"

For instance: some Pool farmers have stored wheat from their 1920 crop past the date of the closing of the 1920 Pool, which was July 15th, and delivered this grain to the 1920 Pool. No objections have been made by the Pool against this practice. A recent news item issued by the Wheat Pool mentioned that action had been taken against a few Pool members who had not delivered their 1920 wheat to the Pool. This has been construed by some to mean that all Pool wheat should be delivered within the Pool year. As a matter of fact the action was taken because the wheat had been delivered outside the Pool.

GRANLIN & RUNNING

"In Selling Position"

Alberta Wheat Pool members should appreciate what it means to the Central Selling Agency to have Pool wheat in "a selling position."

To make the best sales Pool wheat should be in a position where it is instantly available, and where long and troublesome delays are not incurred.

When Pool wheat is in Pool elevators the Selling Agency can depend upon it being directed wherever it is wanted. For that reason, if for no other, Pool wheat should be delivered to Pool elevators.

Besides this, Pool elevators give Pool members an assurance of payment to an extent never known in the days when there was no Wheat Pool.

You can best aid your Selling Agency and your own elevator system by delivering your wheat to Pool elevators.

Child Welfare Clinic Arranged

A Child Welfare Clinic for pre-school age, has been arranged by the Champion Women's Institute. Miss E. M. Davidson, R. N. of the Provincial Public Health Department, who is specially trained in this branch of work, will be in charge. The clinic will be held at the home of Mrs. U. S. Alexander on Tuesday, October 1st, between the hours of 1 p.m. and 4 p.m. Mothers in the community are cordially invited to come and bring their babies and children up to six years of age for free health examination. Remember the date, time and place.

W. M. Armstrong left for Houston, Texas, via Champion on Monday, where he will be Grand Representative of Alberta at the Grand Encampment I.O.O.F. He will be away for over two weeks.

Travers News

Travers is now assuming an air of importance since the positive information that the Bay-Marland Company will dig for the elusive oil in the valley a few miles west of her borders. Room and building will become active in the next few months. Every available house is now occupied. We hope to be not only the most central point on this line of railway but the most thriving and populous as well. We shall also be glad to see our northern and southern villages share in our expected prosperity.

Our genial and highly esteemed citizen, Mrs. Holden, was stricken last week with a slight paralytic stroke. It was not sufficient to render her unconscious and she was able to leave on Monday last to spend the winter with friends in the state of Washington. Her many friends wish her a speedy return to health.

Mr. and Mrs. O. H. Baughman, one-time old settlers of this district, but now of Wenatchee, Wash., accompanied by their daughter, Evelyn, and son, Wendell, spent a few days of last week visiting Mrs. Baughman's mother, Mrs. Holden and sister, Mrs. Wm. Turley, of this village. Being pioneers of this district before going to Washington they spent a very pleasant time visiting old acquaintances. Mr. Baughman has an extensive fruit farm in Washington.

Mr. and Mrs. Gerald Elliott, of Saskatoon, are visiting friends in this vicinity.

Mr. and Mrs. Albert Jones intend to spend the coming winter in Cincinnati, Ohio. They will pay a prolonged visit to their daughter, Mrs. Beck.

Dorothy Scott we are sorry to learn is in the Bassano hospital suffering from a serious affection of the throat. It is learned that she will have to undergo an operation. This unfortunate condition is the result of an attack of measles.

It Is Not Easy--

To apologize
To begin over
To admit error
To be unselfish
To take advice
To be charitable
To be considerate
To keep on trying
To avoid mistakes
To forgive and forget
To keep out of the rut
To make the most of a little
To maintain a high standard
To recognize the silver lining
But It Always Pays

—Menthology.
Don't take your housekeeping too seriously for there are thousands of women in their graves today because they insisted on dusting behind all of his pictures—Aunt Tey.

The other day a colored man bought some pills at the drug store. The clerk told him to take one pill three times a day. "Boss," exclaimed the darky, "Ah ca'n't do dat—Ah wuks at night."

EXPECTING THE BEST

Farmers dealing with the United Grain Growers expect the best in service and treatment.

They have a right to expect it, for this is a farmers' and it has the experience, the resources, the organization and equipment to give such service and treatment.

Deliver your grain to

UNITED GRAIN GROWERS LTD

Elevator at Champion.

Britain and Canada

Canada is honored at the present time by having among its visitors three notable British statesmen, Hon. J. H. Thomas, Minister of Employment in the Ramsey MacDonald Government, Winston S. Churchill, former Chancellor of the Exchequer, and Mr. Amery, former Minister for the Dominions. Mr. Churchill and Mr. Amery are in Canada on holiday, but they are none the less closely studying conditions and ascertaining the sentiment of this country in regard to vital questions of Empire policy such as immigration, trade and commerce, and the possibilities of closer relationships in matters for the general advancement of both Mother Country and this Dominion.

On the other hand, Mr. Thomas' visit to Canada is made in his official capacity as Minister of Employment with the object of endeavoring to find out in what ways Canada can assist in solving the serious unemployment problem in Britain without doing injury to itself, and, having discovered, or evolved, ways and means to accomplish this object, to secure the co-operation of the Canadian Government and the Canadian people in carrying them into effect.

Fortunately, the first impression created by Mr. Thomas' mission has been removed. As the minister charged with the task of solving the unemployment problem in Britain, it was felt that Mr. Thomas was coming to Canada with a view to developing some immigration policy whereby large numbers of British unemployed would be transferred to this Dominion. Anxious as Canada may be to have a large proportion of its incoming settlers of British birth, this Dominion is not prepared to have thousands of men dumped into the market who are unable to find work at home and who have no training or aptitude for life in this land. Mr. Thomas has made it abundantly clear that he has no such intention; on the contrary, Mr. Thomas declares: "It is not my aim to solve my unemployment problem by creating one for you. Unemployment and famishment are, he says, two quite separate and distinct problems and should be tackled as such."

Then what is Mr. Thomas' proposal to Canada? It is simple, clear-cut, workable, and one that should find favor with, and the sympathetic support of the people of Canada. In a word it is that our large Canadian corporations, and our people generally, should, when making purchases buy British-made goods and articles, if such are not made in Canada, in preference to buying from any other country. He has asked the Dominion Government to give encouragement and support to such a policy. He has said down in conference with the heads of the Canadian Pacific and Canadian National Railways and asked them to follow such a policy. He has said to the officials of the Canadian Wheat Pool: "Britain is the largest purchaser of your wheat. You are your best customer, just as we are Canada's best customer. Thus, when you require machinery or other things which Canada itself does not manufacture and cannot supply, we ask you to buy from us, rather than from others."

This should appeal to the people of Canada as good business. It is a self-respecting policy for both parties to it. For example, Mr. Thomas points out that Canada imports over 16,000,000 tons of coal from the United States. He wants, and says he is going to get, some of that coal business for British-made goods and articles, and there is to offset the coal mining industry of the Old Land and supply work for some of the thousands of unemployed miners there, as well as cargoes for British boats, thus providing employment for British dock hands, sailors, and all and sundry having to do with the business of shipping.

Such a policy will strike a responsive chord with the people of Western Canada, who are not particularly favourable to any policy of restrictive tariffs, or other forms of restraint on trade, and who firmly believe that the proper policy for this Dominion to pursue is to offset tariff action by other countries against Canada by further reducing tariffs on British goods and thereby assisting to substitute British-made goods for those of other countries.

The success of such a policy lies largely with the individual Canadian citizen. He can make it a success by stipulating when making any purchase that, first, he must have an article made in Canada, and, if that cannot be obtained, second, that it be British-made. Importers, wholesalers, distributors, retailers, will quickly adjust their stocks to comply with the popular demand.

Leaving all sentiment aside, it is good business for the people of Canada to support and buy from their best customer. The more we buy from Britain, the more Britain can afford to buy from us.

Silver Dollar Out Of Date

Fifty Million In U.S. Treasury But No Demand For Them

The silver dollar has joined the horse and buggy and other remnants of the past and has fallen from circulation, while the silver half-dollar is still used in the West, but is going out of use in the East, because quarters are favored for tipping, according to U.S. Treasury officials. At the present time there are about 20,000,000 silver dollars tied up in the Treasury to back up silver certificates, although they could easily be placed in circulation, if there were a demand for them.

New Car For King George

Has Six Wheels and Will Travel Over Roughest Roads

A six-wheeled motor car built to travel over the roughest roads, and ordered to the King at Sandringham, Norfolk. It is an all-British production designed to travel over the roughest roads and broken ground and even over ploughed land, while it can travel at 60 miles an hour on the open road. The car has detachable rubber caterpillar treads for really rough ground.

The proposed canal across Nicaragua, to link the Atlantic and Pacific, would be bigger than the Panama Canal.

A new type of lifeboat, recently tested in British waters, holds 300 passengers and is equipped with radio.

Any job is easy when you like it and hard when you dislike it.

Was Victim Of Glacier

Body Of Austrian Recovered After Eighty-Three Years

Eighty-three years ago, Norbert Matternberger, at the time 32 years old, husband of Magda, and father of Franz Otto, failed to return to his cottage, in the village of Kals, Austria, one day from the woods, where he won his living hunting game. A rescue party from the village decided he had been caught in an avalanche of ice.

Recently Matternberger came home just as he left that day in 1846. The glacier had given up its prey. Although clean shaven, according to family records, when he left, he had a two-inch beard when a party of hunters found him on the edge of the glacier. The body, clothes, and weapons were in a perfect state of preservation.

Frans Matternberger is now 88. His father was buried at Kals, while grandchildren and great-grandchildren mourned at his grave.

WHAT OUR GIRLS NEED

When Languid, Anaemic and Feeling Run Down

When a girl grows languid, dull and irritable, when her color fades and she becomes pale, you may be sure that the cause is anaemia, or impoverished blood. The bright, red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry nourishment from the blood to the tissues. They also cause the flow of health in cheeks and lips.

When a girl's blood is deficient in these red corpuscles her body is unhealthful, her nerves are weak, and there is a serious danger of a defective marriage, if not of improvement in the quality of the blood, and it is a scientific fact that the purity of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anaemia, and accompanying weaknesses will disappear.

As an evidence of the value of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Plunin, of New York, writes:—"I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous and much under the weather. We tried several medicines, but they did not seem to do her any good, so I decided to give her Dr. Williams' Pink Pills. Almost from the start she began to improve, and after the use of a few boxes she had gained in weight, her appetite improved and she had a better color in her cheeks. In fact she had fully regained her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills at the first sign of an anaemic condition."

Dr. Williams' Pink Pills are a genuine medicine dealer or by mail at 50c. A box of Dr. Williams' Pink Pills, Medicine Co., Brockville, Ont.

World Harvest Larger

Wheat Area At Many Countries Increased In Last Year

Present indications are that the world acreage of wheat to be harvested in the season 1929-30 will be larger than that of last year. The 1928 wheat acreage in Canada is estimated to be five million acres larger than in 1928. Area reported in all European countries total 1,000,000 acres, an increase of 1.4 per cent. over last year.

Worms in children work havoc. These pests attack the tender lining of the intestines and if left to pursue their ravages, undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Milky Worm Powder will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Chinese writers state that in the third century B.C. China had wide highways lined with shade trees spaced at intervals of thirty feet.

An Indian spider's web, only six inches wide, was found to contain over 45,000 meshes.

Cramps Diarrhoea Pains In Stomach

Mr. Roy Lighthall, Milford, Ontario, writes:—"I became very ill, lost my sleep, had cramps, diarrhoea, and severe pain in my stomach."

"I purchased a bottle of Dr. DeWitt's Little Blue Pills and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise 'The Extract' too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. DeWitt's" has been on the market for the past 34 years; you don't experiment when you buy it. Price 50 cents a bottle at all dealers; but up only 25c. The T. Millard Co. Ltd., Toronto, Ont.

Wonderful Discovery

Of German Experts

Treatment Given To Living Trees Makes Lumber Fireproof

A thin mineral soup, fed to living trees to make their wood partly fireproof after it has been cut and made into boards, has been invented by experts of the College of Forestry, at Tharandt, Germany. The process is a modification of one invented some time ago to dye the wood of a living tree to any desired color. For this purpose solutions of the desired dyes were placed in holes bored in the tree close to the ground. As the sap rose the dye went with it, gradually coloring the wood. In the new fireproofing process, the dye solution is replaced by a bowl of the new "soup" containing compounds of silicon and fluorine and other chemical elements.

so arranged that the solution flows little by little into a hole bored in the tree trunk. As with the dye solution, these chemicals are absorbed slowly by the tree and carried up by the rising sap into every fibre of the wood. The solution is too diluted to damage the living cells of the tree. Instead, its chemicals are gradually converted into mineral deposits throughout the wood, such as happens in the course of millions of years to wood buried in mineralized ground and slowly turned into stone.

To carry this mineralizing process too far in the trees intended for timber is unwise, since the mineral deposits make the wood too brittle to saw. The German experts claim to have succeeded, however, in mineralizing trees just enough so that their wood almost fireproof without destroying its properties as wood.

Might Be Good Idea

Everyone In Japan Compelled To Carry Identification Disc

"Where's your identification disc?" is the near future you may be stopped by a policeman and asked this question. If you can't produce the disc, it may mean a police court summons and a fine, says a writer in Answers. This may sound far-fetched, but a conner remarked the other day that it would be a good thing if everybody carried an identification disc of some kind, and was informed by a police officer that this was compulsory in Japan. There everyone wears such a disc around the neck from birth onwards. Apart from the convenience in accident cases, it would also be a safeguard against loss of memory, of which there have been many instances.

Several Canadians Also Received

Honorary Degree At Dalhousie University

America's minister to Canada, Hon. William Phillips, and Canada's minister to the United States, Hon. Vincent Massey, were among those receiving honorary degrees at Dalhousie University's reunion convocation. Other distinguished men to be honored were Hon. E. N. Rhodes, P.C., Premier of Nova Scotia; Hon. A. R. MacLennan, president of the Exchequer Court of Canada; Col. Hon. J. L. Halston, Minister of National Defence and Chief Justice A. M. Morrison, of the Supreme Court of British Columbia.

The Singing Fool

By HUBERT DAIL
Copyright, 1924, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, the singing waiter and room writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Al insists on marrying Molly, the ballet singer at Blackie's, because he loves her. Molly marries him, not loving him, but she pulls her return to the stage and loses interest in the club. Her romantic interest in John Perry, Al's best friend, is revived and one day Grace sees them riding in Molly's limousine. She also sees the man put his arm possessively about Molly.

CHAPTER XII

Night on Broadway. The richly dressed limousine crowds had left the theatres and were pouring into the fashionable night clubs. The electric sign on the night club blinked, beamed and beckoned. "Here," they seemed to say, "you may find success from grace, here you may eat, drink and be merry until dawn—if you have the price." Brightest among those insidiously beckoning lights was the brilliant sign of the CLUB BOMBO, where Al Stone was part owner and master of ceremonies. What a contrast to the shabby old place where he had once worked—Blackie Joe's. Al often thought of it. And what a contrast between the job he now held and his old one. Once he had been a mere singing waiter, eager for the tips that the zone too affluent patrons of Blackie's place threw him when they happened to like his comic songs and his ad lib wise-cracking. Now he was using his fame as Broadway's foremost song writer to pull the shekels into his pocket at the Club Bombo. He was the magnet, the favorite of the big-time crowds. They called him the "Singing Fool" because he could put his songs over with such emotional intensity. The ballroom of Al's club was expensive and expansive, designed to hold the huge crowd that came there. The tables spread across the room an army of round white tops, with a small cleared space in the middle for the colored performers and for dancing. One of the best jazz orchestras in the land furnished music from a raised platform at one side.

It's folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago, neuralgia, fever, or any ailment that gives you a sore throat or tonsillitis. Proper direction for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

"You bet it does!" cried Molly vehemently, and almost bitterly. "If I didn't think so I would never have let you come near me!"

John Perry smiled. He knew the cool, calculating, ambitious Molly was mad about him. But he was mad about her, too. At first, his interest had been the lightest of flirtations, for he was a normal philosopher, but gradually the situation had changed. To his own amazement a longing for Molly possessed him; now he found himself willing to do whatever it took to get her.

Suddenly she turned to him and said gravely, "What about my baby?—What about Junior?"

But Perry had no answer to that, he merely shrugged his shoulders. He wanted Molly to himself, without any entanglements. Molly gave a little smile and fixed her gaze on the broad back of the chauffeur, just now. How much did that man know of her interest in John?

Her unspoken words were cut short as Perry's arm went around her, and she felt herself drawn irresistibly toward him. In the dark compartment of the limousine her lips were pressed hard against his. His arms were around her like a vise. She forgot Al and John, forgot her ambitions, forgot everything but the passionate embrace of the man who held her. She relaxed for a thrilling moment and smiled into his eyes only a few inches from her own. Then she pulled herself abruptly away, for the car was approaching the Club Bombo!

Quickly she matched a jewel case from her tiny bag, gazed at herself in the mirror, patted her disarranged hair back into shape. Her rounded feet high are described to Canadian school children as being "barren," while areas where the vermin on a level with that in other Alberta are referred to as "places where moss and lichens are found." Mr. Stefansson looks forward to the production of primary foodstuffs in the north as the next development.

It becomes evident that much of the research contained in school textbooks was compiled many years ago, or, if recently written, was taken from the earlier books and that the writers have had no opportunity of ascertaining the actual facts. Evaluations might do well to get their heads together, to consider the state of affairs maintained by the explorer, apply the remedy where it may be needed and then to make a list of the facts as to historic facts in the textbooks.—Montreal Gazette.

Farm Incomes Higher

Average Increased By Seventy-Five Dollars in Year

The average cash income per farm home in the Provinces of Manitoba, Saskatchewan and Alberta last year was \$2,544, exclusive of the value of seed, feed, meat, vegetables and other commodities produced and received by the farmer for his own requirements. This is an increase of \$75 per home over the previous year.

The Oil of the People.—Many oils have come and gone but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness. Each year it finds qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it, and would use no other preparation.

Frequent Test Essential

That a man has passed a driving test with flying colours does not mean that he could pass the same test as successfully ten years thereafter. In the interval he might have suffered all sorts of illnesses and have acquired more defects which gravely affected his qualifications as a motor vehicle operator.

Ex-Natives' Willing to Still the Wealthiest Group, his estate being estimated at \$600,000,000 gold marks, approximately \$110,000,000.

People like to trade with a going concern provided it isn't going backward.

Misrepresenting Canada

Canadian Text Books Need Revising In Some Particulars

School history textbooks written, edited and printed in the United States for use in Canadian schools have of late attracted some impetuous in Canadian educational circles and beyond, the argument being, quite properly, that Canadian children should not be raised on foreign-made literature which is largely propaganda. Now comes a complaint by no less an authority on the subject he deals with than Vilhjalmur Stefansson, the Arctic explorer, that the books written in Canada, presumably by Canadian authors, malign Northern Canada. Mr. Stefansson, however, does not speak, and attention may be given by the authorities to his observations. One instance of the misrepresentation of the mother country of the Canadian textbooks says that the temperature in the northern districts rises above the zero point, and in such districts he points out the Winnipeg places as high as it does in Canada. Places where trees grow, rounded feet high are described to Canadian school children as being "barren," while areas where the vermin on a level with that in other Alberta are referred to as "places where moss and lichens are found." Mr. Stefansson looks forward to the production of primary foodstuffs in the north as the next development.

It becomes evident that much of the research contained in school textbooks was compiled many years ago, or, if recently written, was taken from the earlier books and that the writers have had no opportunity of ascertaining the actual facts. Evaluations might do well to get their heads together, to consider the state of affairs maintained by the explorer, apply the remedy where it may be needed and then to make a list of the facts as to historic facts in the textbooks.—Montreal Gazette.

Little Helps For This Week

"Surely the Lord is in this place, and I knew it not."—Genesis xxviii, 16.

Since God doth will that some shall dwell at ease.

And others shall know hardness;—This is not dead.

The lot that fits each nature He foresees;

And wherefore murmur when we must endure?

Someday He'll bring wisdom will be plain.

As the sweet sunshine following after rain.

—Mary Bradley.

Do not despise your situation; in it you must act, suffer and conquer. From every point on earth we are equally near to heaven and to the infinite.—Henri Frederic Amis.

Accept your lot as a man does a piece of rugged ground, and begin to get out the rocks and roots, to deepen and mellow the soil, to enrich and plant it.—Henry Ward Beecher.

Corns are painful growths. Hollister's Corn Remover will remove them.

Where Germany Leads

Has Greater Number Of Miles of Airways In Operation

The United States leads in civil air transportation so far as mail carried and the number of miles flown are concerned, but Germany is ahead of the rest of the world in miles of airways in operation, number of passengers carried, in commercial mileage per aeroplane, and also in pounds of express mail freight carried. Canada comes second in number of passengers carried with 74,689, and is third in express and freight. The figures are for 1928.

"Land makes there, Mary! What's that that noise in the kitchen?"

"You don't expect me to break three platters and two cups without makin' a noise, do yuh?"

Slabs of copper in Sweden, tea compressed into bricks in China, tobacco, milk, cattle and salt, were at one time used as coins.

Minard's Liniment—The King of Pains.

Requires Aid Of People To Be Preserved

The London Times has issued a warning which should be noticed throughout the British Empire. It declares that the enormous timber resources of the Empire are a rapidly vanishing asset. Further than that, it says that unless an end is put to extravagant waste, and new timber reserves created in suitable areas, the day must inevitably come when the world's supplies will prove unequal to the demand. Indeed, the opinion has been expressed by competent authorities that this day is not very far off. The aid of the people is required in this matter; for if the farmer would take advantage in Canada of the free offers of young trees for plantations, it would help enormously, and way should not municipalities do so too, and earn revenues? One wonders, too, why thousands of acres of waste land in Great Britain are not used for forestry purposes. This would provide employment for the unemployed and wealth for posterity.

Like a Grip At The Throat. For A

There is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer comes exhausted and finally, though making every effort, is left in unending dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages thousands can testify. It is sold by dealers everywhere.

France Sending Immigrants To Canada

Arrival Of First Actual Settlers From France In Many Years

Heretofore the arrival later of more than twenty families who are to come direct from France to settle on farm land in Canada, two families comprising some dozen souls reached Montreal, by the Canard "Ascania," to settle under the auspices of the Canadian Department of the Canadian National Railways.

The two families who arrived are the first actual settlers to come from France to Canada in many years, and they are merely the forerunners of other families who will come out next spring.

The First Alarm Clock

It comes as a surprise to find that the alarm clock appeared more than three centuries ago. A beautiful timepiece made in Germany about 1600, indicated the time on a great horizontal face, while the movement of the hand served to strike an alarm. The owners of this remarkable clock were the inventors frequently for the mechanism was far from reliable.

An Amazing Project

Plan To Make Inland Sea In Sahara

Ancient prophecies may be fulfilled if a project declared feasible by engineers is carried out. It involves making a new inland sea in the Sahara, and that would be accomplished by digging a canal which would begin about twenty-five miles from Biskra and run out to the Gulf of Gabes, in Algeria. It would be 210 yards wide, thirty-nine yards deep 170 miles long. It would connect the right salt (shallow saline lakes), that exist in that region, and would transform it into a vast interior sea having a surface of 14,000 square miles.

IS THERE A BABY IN YOUR HOME

In there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and demands should always be at hand to promptly fight them. Baby's Own Tablets are the new home remedy. They regulate the bowels, sweeten the stomach, banish flatulency and indigestion, break up colds and simple fevers—in fact they relieve all the minor ailments of infancy. Concerning them Mrs. Mabel Cabotte, Makinaki, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon put her right and now she is in perfect health." The Tablets are sold by medicine dealers or 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Knifeful Cherry Tree

A cherry tree at Salem, Oregon, known to be over 70 years old, has produced 1,157 pounds of cherries this year, bringing a total of \$115.70. The tree is ten feet around the base and the body sound, according to R. E. Shinn, who has been caring for it. The doctor knows best!

Requires Aid Of People To Be Preserved

The London Times has issued a warning which should be noticed throughout the British Empire. It declares that the enormous timber resources of the Empire are a rapidly vanishing asset. Further than that, it says that unless an end is put to extravagant waste, and new timber reserves created in suitable areas, the day must inevitably come when the world's supplies will prove unequal to the demand. Indeed, the opinion has been expressed by competent authorities that this day is not very far off. The aid of the people is required in this matter; for if the farmer would take advantage in Canada of the free offers of young trees for plantations, it would help enormously, and way should not municipalities do so too, and earn revenues? One wonders, too, why thousands of acres of waste land in Great Britain are not used for forestry purposes. This would provide employment for the unemployed and wealth for posterity.

Like a Grip At The Throat. For A

There is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer comes exhausted and finally, though making every effort, is left in unending dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages thousands can testify. It is sold by dealers everywhere.

France Sending Immigrants To Canada

Arrival Of First Actual Settlers From France In Many Years

Heretofore the arrival later of more than twenty families who are to come direct from France to settle on farm land in Canada, two families comprising some dozen souls reached Montreal, by the Canard "Ascania," to settle under the auspices of the Canadian Department of the Canadian National Railways.

The two families who arrived are the first actual settlers to come from France to Canada in many years, and they are merely the forerunners of other families who will come out next spring.

The First Alarm Clock

GREAT BRITAIN'S FOREIGN POLICY ONE OF PEACE

Victoria.—Great Britain's foreign policy has never been one of subservience to France, but for the preservation of peace in Europe, it has been the policy of the British Government, declared here.

He was addressing a luncheon given in his honor, where nearly 1,000 persons greeted him enthusiastically. The gathering was sponsored by the Canadian Club and National Council of Education.

He had gathered, said Mr. Churchill, that there had been tendencies to misrepresent the foreign policy of his speech. Britain had never recognized, he recalled, that reconciliation between France and Germany was the primary objective of European diplomats and leaders. All other problems were of lesser importance. Through the treaty of Locarno the bringing of peace nations into closer comradeship had been attained.

"We have always been anxious that Germany should resume her place in the family of Europe, and that has been achieved. Not that we did that at the expense of the allies with whom we stood side by side during those long war years," he said. "Our policy in Europe has been clear, firm, and consistent."

Britain had very old and highly valued associations with Japan, he said, dealing with the policy of the Pacific. He had always found confidence in the government of Japan strengthened by all its conduct. "The broadening of the Anglo-Japanese alliance at Washington to include the United States, the Pacific ocean had been placed in a position of security that did not belie its name. "I think you will agree the British policy in China has been successful," he declared, pointing out that a very difficult period had been passed through and consolidation was now in sight.

Reduce Running Time

Canadian National To Consider Matter Of Increasing Speed From Montreal To Vancouver

Winnipeg, Man.—Immediate consideration is being given the matter of cutting the running time of Canadian National trains from Montreal to Vancouver in conformity with the proposed cut of 10 hours for transcontinental trains by the Canadian Pacific, as recently announced by President Beatty. According to a statement made by Sir Henry Thornton, K.C.B., president of the Canadian National Railways, just prior to his departure for Montreal.

The president who was accompanied by Lady Thornton, left on the special train for Montreal. He marks the conclusion of Sir Henry's annual tour of western lines, in the course of which, he said, he had once had occasion to note with admiration the optimism of Canadian in the west under trying circumstances.

He referred to the adverse crop conditions. While a national disaster had been narrowly averted, the morale of the westerner had not been affected. Nor had the faith of the Canadian National in the west, he added, stating that the plans for expansion which had been in progress would be continued while new ones were being considered.

Valuation Of Beech Property

Holdings Of Pioneer Homesteader At Port Churchill Are Appraised

The Pass, Man.—The heirs of the late Capt. William Beech, pioneer homesteader at Port Churchill, accompanied by their solicitors have arrived from the Hudson Bay port. The party had gone north to have an expert valuation of the property which is now the subject of exchange court proceedings.

Nothing was divulged in regard to the valuation placed on the 20,000 acres held by the Beech family at Churchill.

The case will come before a court here in Winnipeg about the end of the month.

Boat Strikes Whaling

Yarmouth, N.S.—Striking a 50-foot whale some miles southwest of Yarmouth Cape, the steamer "Yarmouth" only freed itself an hour later by stopping and backing away from the huge mammal.

From 1885 to 1927 there were 4,263 lynchings in the United States.

Big Aviation Event

Important Race For Aviators May Be Held In Canada

Toronto.—The rapid development of air navigation in Canada during the past few years promises to culminate in an aviation event in this country which, it is expected, here will rival in importance the race for the Schneider cup, now the international class of aviators.

In view of the fact, as a result of the training received in the war, Canada numbers a considerable body of expert air navigators, and in view of the inevitable tendency towards international air meets, C. O. Stillman, president of the Imperial Oil Company, has made an informal announcement to the effect that his company contemplates a contribution of \$50,000 for the purpose of promoting an international race to be called "The Imperial Air Derby."

The race will begin at some prominent flying centre in the United States, and end at a Canadian field on some date next year to be announced later.

The amount suggested as prizes is said to be far in excess of any inducement yet offered on this continent for an air race, and it is hoped to attract the premier pilots and the most modern machines not only of the United States, but of other countries.

Western Air Mail

Service Expected To Commence

About October First
Ottawa.—Inauguration of 1,250 miles of air mail service on the prairies is expected about Oct. 1, linking Winnipeg with Calgary, and thereby saving a day's time between the two points. G. Herring, chief superintendent of the Dominion Air Mail Service, is now in the west making arrangements with the Western Canadian Airways Company, of Winnipeg, while H. P. J. Venio, postmaster-general, plans to go to Winnipeg to officiate at the formal opening of the service.

Next year, it was planned for daily service. It was learned at the postmaster-general's department, the one from Winnipeg via Regina, Moose Jaw, Calgary and Edmonton, and the other from Regina via Saskatoon and North Battleford to Edmonton.

This year, it is indicated, the air mail service will likely be established across the Rockies to the Pacific Coast, giving practically a coast-wide air mail service from Rimouski in the Gulf of St. Lawrence and the arrival of ships from Europe.

Canada's National Parks

American Visitor Thinks Parks Of British Columbia Ahead Of Those In U.S.A.

Washington.—A trip through the Canadian Rocky Mountain National Park has convinced Mayor Ralph Bauer, of Lynn, Mass., that the map-making and upkeep of the British Columbia park is far ahead of the American National Parks, which he has just returned from. He has written a letter to Senator David I. Walsh, to this effect, and the senator has asked the national park service to investigate.

Mayor Bauer stated that the Canadian roads were better made, and wider and were well oiled. There was no charge for admittance and the whole reservation seemed to be run for the people to whom it belongs rather than for concessionaires "in an effort to bleed the people to the last dollar possible."

Milk Shortage In Ontario

Toronto, Ont.—Dry weather may bring a milk shortage in Ontario, according to George H. Barr, provincial dairy inspector. Toronto milk dealers have announced an advance in price of one cent a quart. John Carroll, of the Department of Agriculture, states that heavy crop losses may be the result from the most extreme spell in years.

Great Apples In Saskatoon

Saskatoon, Sask.—Apples that compare favorably in size and taste with those grown in British Columbia, have been produced this year in Saskatoon. George Pow, of this city, has a two-year-old tree that produced more than 500 good-looking Blushed Caville apples. He also grows cherries and plums in his back yard.

Java Sugar Arrives

Montreal.—With the first shipment of sugar from Java for Canada, in 1928, the 20 years, the S. C. Clarke, skene, arrived at Montreal with 73,000 bags from Tjilatjap, on July 28, after a journey in 48 days, sailing from Tjilatjap on July 13.

British Settlers For Coast Province

\$400,000,000 Is Requested For Purpose Of Facilitating Plan

London, Eng.—The required sum of \$400,000,000 for the establishment of the Empire Development Corporation is assured, according to an assertion by Dr. C. T. Galbraith, in London newspapers recently—an assertion that is causing much rejoicing in official quarters. Dr. Galbraith is here in connection with the movement of settlers from the Old Country to British Columbia.

Dr. Galbraith says it is proposed that the corporation should acquire 20,000,000 acres in British Columbia and settle thereon 20,000 British families.

Premier Tomlin has requested Mr. Thomas to send a representative to British Columbia, he declared, "and I am only waiting the approval of the scheme by Premier MacDonald, Lord Peel, and Lord Macdonald."

"It is proposed that the governments of Britain and British Columbia should have representatives on advisory boards and that British and Canadian trades unions also have representatives. Opportunities to co-operate would be offered to organizations carrying on empire settlement operations."

CANADA TAKES IMPORTANT STEP AT WORLD COURT

Geneva.—Canada is first among the British Dominions formally to declare adhesion to the optional clause of the world court, which provides for compulsory arbitration of international disputes.

Cheers rang through the Hall of Reformation when Senator Rountree, giving notice of the declaration, made this declaration to the tenth assembly of the League of Nations. As he left the tribune, the delegates of Great Britain and France joined with those offering congratulations.

From Senator Dandurand's statement it was clear the Canadian declaration did not come as a result of the recent discussion of the subject of the Dominion and Great Britain, or in consequence of Premier Ramsay MacDonald's similar declaration in behalf of Britain. Since the day Premier Mackenzie King, of Canada, sent the League his statement of March 10, 1925, that the Canadian government was prepared to accept compulsory jurisdiction of the Court of International Justice in justifiable disputes, Canada has never faltered, Senator Dandurand emphasized.

Other dominions which are members of the League, likewise are preparing to make their declarations of adhesion, but there still remains the problem of reservations. In an endeavor to reach a common understanding, the Dominion's representatives again met the representatives of Britain, Australia and New Zealand, both have reservations.

Canada, too, may have a reservation but it is unlikely it will be made as far reaching as those out of the Antipodes. The Irish Free State and the New Zealand, both have reservations. Among suggested reservations is a provision that compulsory reference to the international court would not apply to disputes between units of the British Commonwealth.

VETERAN NEWS-SPERMAN

Remarkable Political Situation In Saskatchewan Ends With Want Of Confidence Vote

Regina.—The Liberal Government in Saskatchewan after a tenure of office of 24 years, went down to defeat on the floor of the Legislature on a vote of want of confidence. The defeat was brought about by the elected representatives of the people, Conservatives, Progressives and Independents joining together on the want of confidence vote.

The official count of the vote was: Opposition, 34; Government, 27. Only one member of the House was absent when the vote was taken, namely, D. A. Hall, the Liberal member for Cumberland.

Mr. Gardiner closed the debate on the want of confidence motion for the Government, and was followed by E. S. Whitley, Progressive member for Kildonan, who made a short statement indicating the attitude of the Progressive members on the constitutional issues raised, and that he intended to support the motion.

A. C. Stewart, Independent member for Yorkton, followed Mr. Whitley, and stated that the Independent group would also vote for the amendment.

No member of the Conservative group spoke on the amendment, and at the conclusion of Mr. Stewart's speech the Speaker called for the vote.

Trans-Canada Telephone

Line From Halifax To Vancouver To Be In Operation Soon

Edmonton, Alberta.—Within two years a trans-Canada telephone line will be completed from Halifax to Vancouver, and Canadian will be able to talk from coast to coast over an all-Canadian wire, delegates to the ninth annual convention of the Telephone Association of Canada, were told during their five-day meeting at Jasper recently.

The line, it was explained, will cost \$10,000,000. Already it is possible to talk by telephone between the different provinces, but for conversation over a greater distance United States lines must be utilized.

Some 72 delegates from every telephone system in Canada attended the convention, and many phases of the telephone business were discussed.

Succeeding Hon. Vernon W. Smith, Minister of Railways and Telegraphs for Alberta, James Hamilton, general manager of the B. C. Telephone Company, Vancouver, was elected president of the association. Other officers chosen were: Vice-President, John E. Lowry, commissioner of the Manitoba Telephone System, Winnipeg; permanent secretary, A. M. Mitchell, auditor of the Alberta Government Telegraphs, Edmonton.

St. Johns, New Brunswick, was selected as the association's convention city for 1930.

Hon. R. B. Bennett In Ottawa

Returns To East After Five Weeks' Tour Of British Columbia

Ottawa, Ont.—Hon. R. B. Bennett, opposition leader in the House of Commons, returned to the capital from a five weeks' tour of British Columbia, in the course of which he delivered more than 60 addresses.

The Conservative chief returned more impressed than ever with the achievements and potentialities of the Pacific coast provinces. He said, however, the failure of the present government to provide adequate protection was impeding the growth of districts, where, he said, the growers, unable to find home markets, were sending carloads of fruit to the United States on consignment—willing to take any price.

Commander Byrd Unveils Portrait

Los Angeles, Calif.—A radio impulse by Commander Richard E. Byrd, from his Antarctic camp at Little America, revealed that the hero and crew carried on an enlarged picture of Byrd at the Seventh National Radio exposition here.

Eighteen Day Trail Ride

The remote Columbia Ice Field, north of Lake Louise, was the objective this year of the major Trail Ride of the season. These fields are claimed to be the largest body of ice south of the Arctic Circle, covering 200 square miles area. The trail ride is a hardy trail ride, one which they must possess at least the silver button emblematic of 100 miles of trail riding. The trip from trail to trail took eighteen days to complete. The party consisted of W. L. Payne, London, England, and Louis Prevost, of Montreal with Guy Thomas, Brewster's guide, on right, together with a section of the Columbia Ice Field.

Gardiner Government Goes Down To Defeat

Remarkable Political Situation In Saskatchewan Ends With Want Of Confidence Vote

Regina.—The Liberal Government in Saskatchewan after a tenure of office of 24 years, went down to defeat on the floor of the Legislature on a vote of want of confidence. The defeat was brought about by the elected representatives of the people, Conservatives, Progressives and Independents joining together on the want of confidence vote.

The official count of the vote was: Opposition, 34; Government, 27. Only one member of the House was absent when the vote was taken, namely, D. A. Hall, the Liberal member for Cumberland.

Mr. Gardiner closed the debate on the want of confidence motion for the Government, and was followed by E. S. Whitley, Progressive member for Kildonan, who made a short statement indicating the attitude of the Progressive members on the constitutional issues raised, and that he intended to support the motion.

A. C. Stewart, Independent member for Yorkton, followed Mr. Whitley, and stated that the Independent group would also vote for the amendment.

No member of the Conservative group spoke on the amendment, and at the conclusion of Mr. Stewart's speech the Speaker called for the vote.

Infantile Paralysis In East

Quebec Schools Delay Opening On Account Of Outbreak

Quebec.—Due to the outbreak of infantile paralysis in this district, it was decided by the Protestant Board of School Commissioners to postpone the opening of schools until Sept. 10. Schools in this city generally open the first week in September.

Dr. J. A. Leonard, director of the provincial hygiene department, announced that the department was not in a position to supply convalescent serum to combat the disease, but in the event of urgent need would endeavor to secure a supply.

GOOD PROGRESS IS SHOWN IN GARNERING CROP

Ottawa.—Crop reports received from the three prairie provinces indicate excellent progress in the harvesting of the wheat crop. The bulletin issued by the Dominion Bureau of Statistics contains reports from the agriculture departments of Manitoba, Saskatchewan and Alberta.

The crop is practically all cut in the southern Manitoba, and three-fifths of about 50 per cent. done in that part of the province.

A few fields still stand in the north. Splendid progress has been made with harvesting in Saskatchewan. Ninety per cent. of the wheat has been cut in Alberta, 60 per cent. of the oats and barley, and harvest of the crops has been very favorable. Light frosts in scattered districts have done no harm to the Alberta crop. Estimates of the yield vary.

In Manitoba, wheat averaging from five to 25 bushels is reported. The average in Saskatchewan is nine to ten bushels.

The report for Saskatchewan follows:

Splendid progress made with harvesting operations. Wheat cutting nearly completed and about 75 per cent. of coarse grains.

From the Dominion experimental station, Swift Current, thirty per cent. of threshing done; average nine to 10 bushels. Small amount of oats harvested. Wheat crop good. Potatoes will be used for sheep feed. Yield poor.

Winnipeg.—Western Canada's famous gathering rest over the first day week-end, sent marketing figures for Monday and Tuesday (Sept. 2 and 3), to a high total. Figures issued by Canada's two great railways showed that marketings for the two days reached a mark near 7,000,000 bushels.

On Canadian Pacific Railway lines 4,572,000 bushels were piled into bins ready for shipment, and Canadian National Railway points marketed 2,127,000 bushels. Storage at Vancouver and at the head of the lakes now is 1,438,750 bushels and 1,438,750 bushels, respectively.

Storage in Canadian elevators increased 764,000 bushels. The first four days grain has been moving through terminals east and west.

THE SITUATION IN PALESTINE IS MORE SERIOUS

Jerusalem.—Moslem Arabs throughout the Holy Land and the bordering regions are being called upon by highly inflammatory propaganda to revolt and move against the government of Palestine.

Floods of the propaganda material were said to have emanated from Jaffa, Haifa, Egypt, Damascus, Beirut and Aleppo and have been instrumental in the muddle-headed and disreputable which some regard as portentous.

One of the proclamations in circulation among the Arabs heralded a "holy war" and called upon all Arabs to help Arab insurgents in Palestine by being called upon to be described in the blackest terms.

Although Jerusalem was quiet, British troops continued their incessant clashes with bands of tribesmen who have penetrated the Palestine borders.

Reports persisted, despite official denials, that skirmishes with Bedouins have occurred near Hebron, in which six native Christians have been killed.

Jews, who hold the first proclamation of the high commissioner, Sir John Chancellor, as ailing and abating their cause, were not so joyful over a second proclamation by the high commissioner, which announced the constitution of a special committee provided over by British judges to try the criminal cases among both Jews and Arabs, growing out of the recent disturbances.

London.—The situation in Palestine continues grave in communities where no troops have been sent. The exchange of telegrams received by the Exchange Telegraph agent at Cairo. Aeroplanes have killed five and wounded 10 persons.

At Haifa Jewish shops are still closed. The situation is calm, however, and people are resuming work. Curfew regulations are maintained and troops patrol the streets nightly.

Jews and Arabs are boycotting each other. The Anglo-Palestine Bank, which is Jewish, refused bills of credit to Arabs while Arabs are boycotting the Hatzegah electricity company and the Jewish bank.

Following the reports of Bedouin tribesmen by the British at Safed and Haifa, aeroplanes have been ordered to attack Hebron, and Arab losses are believed to be heavy.

Would Ask For Assurance

Premier MacDonald Should Have No Politics When He Visits States

London, Eng.—Discussing Premier Ramsay MacDonald's statement at Geneva, that the home parliament would not interfere with his trip to Washington, the Liberal newspaper, the Star, suggested that the Premier, before he leaves, firm assurance that the exigencies he fears will not arise and that he will go to Washington. It will not be as the leader of the Labor Government, but as the spokesman of the whole nation on the vital issues concerned.

Speaking of the possibility of his trip, the Premier pointed out the difficulty of the leader of a party without a clear majority being out of the country while parliament was sitting.

Returns From Arctic Trip

Steamer Beothic Back From Eight Thousand Mile Voyage

North Sydney, N.S.—The steamer Beothic, back from eight thousand miles, and six weeks of threading the eastern archipelago of Canada's Arctic sea, arrived here recently. Scientists and the evolver of his discoveries in the north, welfare workers among the Eskimos, and members of the Canadian Mounted Police, back to civilization from their patrol of the world's loneliest belt, were on deck when the Department of the Interior's all-purpose supply boat docked here.

Among them is J. D. Soper, Canadian government naturalist, bringing with him to Ottawa the first live goose ever seen by man.

Invitation For Ramsay MacDonald

London.—The American Federation of Labor will invite Premier Ramsay MacDonald to attend its 49th annual convention at Toronto, Ontario, in October, if it is found convenient for Mr. MacDonald to do so.

CHAMPION CHATTER

VOL. 1

No. 39

Published in the interests of the People of the Champion and Farmers of this vicinity.
GEORGE L. DEPUÉ, Editor.

EDITORIAL

VOW!
 Studies recently conducted by the rural economics department of the Ohio State University show that the average farmer walks an average distance of 9 miles a month in doing his chores. Of course, there is a wide variation due to the efficiency of the barn, equipment, etc. Some farmers walk but a mile to do what others must walk 11 miles to do. The average mileage involved in the average set of chores is 8.

C. J. Marshman has taken an 12 ft. Mc-Dr. Rod Weeder. Cliff says he wants his summer-fallow clean.

If you are not already equipped to grind the grain you feed, get a Mc-Dr. Feed Grinder

without delay. We shall gladly have you get your folder, show you the machine, and answer questions about the machine or the method of feeding. We want to help save feeding cost in our home community.

We haven't run a luck-alike limerick for a long time. Here's one that will be easy for you:
 When Frankie was driving along
 A free truck sounded its gong;
 But this stubborn jay
 Kept right on his way—
 To the next town.

Atwater-Kent now introduces Screen Grid Radio. It means the clearest flow of pure tone quality that you have ever heard from a radio set. It means new sensitivity—new selectivity—new needle point selectivity to separate stations and pick out the one you want. New velocity depths and new

heights of tonal perfection. That's the Atwater-Kent for 1929.

A collector is a man with many few ears to see but many ask to call again.

Mc-Dr. Engines are built in 1 1/2, 3, 5 and 10 h.p. sizes. There's a place for one or two of these engines on almost every farm in this community. Why work hard over chores that power can do easily and economically?

It requires 130,000 roses to make one ounce of attar of roses perfume.

Generally speaking, leaders are false told about busy people by busy bodies.

"Good Equipment Makes a Good Farmer Better."

LOCAL AND GENERAL

J. A. Long and wife left on an extended visit to the coast.

Mrs. P. M. Patterson and Clinton made a trip to Calgary during the week.

Mrs. Lee and family of Nanton, were visitors with her sister, Mrs. R. A. Clements.

Mrs. T. Gill returned recently from a seven weeks' visit with her daughter at Edmonton.

Miss Poland, teaching north of Vulcan, was a guest at the Guest Ranch over the week end.

Mr. and Mrs. Townsend, of Calgary, were the guests of Mrs. L. M. Groves over Sunday, their daughter being the teacher in Yale school.

Little Sheila McLeod, daughter of Mr. and Mrs. Ross McLeod passed away in the Holy Cross hospital, Calgary, last week in her fourth year. The funeral took place at Olds.

The church was beautifully decorated on Sunday. It was surprising the flowers that were gathered for the occasion, Mrs. Moffatt and Mrs. McIntyre bringingsome from Claresholm.

The opening dance of the season will be held in the Community Hall on Friday evening, Sept. 27th. The Len Davis orchestra has been engaged for the occasion and a big time may be anticipated with confidence.

After much discussion it has been decided to teach two subjects in Grade XII during the present term. This decision is a matter of satisfaction to parents whose children have Supps. to write off and also to those not ready to leave home to take up Grade XII work.

Anderson Bros. airplane has been busily engaged since Sunday morning in taking almost everyone up for a ride, and lately teaching a class to fly. At least one new plane has been ordered and others orders may follow. To say the least the population here is "Flying conscious."

Mrs. F. C. Alcock, district director A.W.I., returned home on Saturday evening, Sept. 7th, having been at the Constitution Conferences for the southern division of Alberta. She reports splendid results of her work, and by the reception given to her at all conferences indicates she and her work are appreciated. She has visited Spring Coulee, Brooks, Atlee, Standand, Ramond, Aldersyde, Vul-

can, Lundbreck, Granum, Mahabere and Warner.

K. R. McLean R.O., of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, September 27th. At the Drug Store.

Owing to the illness of Miss Ethel Diemert, who is recuperating at Brant, the Chronicle staff was reduced to the vanishing point, and many news items are held over from sheer inability to get them into type.

T. Burland, assistant at the C.P.R. depot is again on the job to general satisfaction.

An interesting collection of wheat yields are held over until next week.

Society Brand Clothes

© Society Brand

We have never used the word "cheap"

That word carries a meaning that doesn't apply to the merchandise we sell. It seems to suggest that we can give you something for nothing. And we can't.

Take Society Brand Clothes. They cost a bit more than the average. They simply can't be sold for less than forty dollars. And when you buy them you're paying for everything you get.

But here's the point: The things you do get—such as fine fabrics, really expert tailoring, and unequalled smartness of cut—are of the sort that give you more satisfaction than you can measure in money.

That's value—as we understand it. Come see our new showing of Society Brand, and we believe you'll feel the same way!
